

Ink Partnership Program

Partner with NUR Macroprinters' to get the superior ink systems that maximise reliability and productivity.

IN ANY COLOUR...

It's the right choice

The NUR Ink Partnership Program ensures that you have the specialised ink products to operate all your NUR Macroprinters wide and superwide digital printers more efficiently and profitably. Beyond the cost savings and discounts on the entire range of NUR Macroprinters' ink systems, the NUR Ink Partnership Program delivers on the promise of consistent image quality and reliability—a full-colour dream come true when you use NUR Macroprinters' superior ink systems exclusively.

No matter what your needs, NUR is committed to delivering all the complementary services and programs that help you get the most out of your NUR equipment

NUR Ink Partnership Program subscribers benefit from significant savings on the NUR Macroprinters' Customer Service Program comprehensive service and support plans.

All the ink products you need to make it big:

NURBOARD™ Ink System:

Pigment-based permanent inks for short and long-term outdoor applications for use with the NUR Blueboard, Wideboard and Outboard series printers.

NUR Fresco™ Ink System:

An all-in-one solvent pigment-based ink system to ensure colour-real, long lasting, colour consistent, weather resistant prints for indoor and outdoor applications.

NUR Salsa™ Ink System:

An all-in-one solvent pigment-based ink system developed to ensure colourful, long lasting, colour consistent, weather resistant prints. For four colour process mode for signage applications or eight-colour process for photorealistic applications—both indoors and outdoors.

ce!
